

# NOAA Community-based Restoration Program

## Funding Opportunities in the Northwest

[www.habitat.noaa.gov/funding/northwest.html](http://www.habitat.noaa.gov/funding/northwest.html)

Funding Opportunity	Funding Range	Description	Proposal Deadline
Estuary Restoration Act	\$100,000 to \$1 million	Funds estuary habitat restoration, with a focus on projects that address projected climate change impacts. <a href="http://www.era.noaa.gov/information/funding.html">www.era.noaa.gov/information/funding.html</a>	<b>Spring 2012</b>
The Nature Conservancy Community-based Grants	\$25,000 to \$85,000	Funds marine and coastal habitat restoration projects that benefit fish and shellfish around the coastal U.S. The applicant should be a TNC local chapter, or working in close coordination with a local chapter.	<b>Spring 2012</b>
FishAmerica Foundation Grants	\$10,000 to \$75,000	Funds on-the-ground marine and anadromous fish habitat restoration projects that benefit recreationally fished species. <a href="http://www.fishamerica.org/grants/">www.fishamerica.org/grants/</a>	<b>Spring 2012</b>
NOAA Marine Debris Prevention and Removal Project Grants	\$15,000 to \$250,000	Funds individual grass-roots marine debris prevention and removal projects that benefit coastal habitat like wetlands and estuaries, as well as fisheries, marine mammals, and sea turtles. <a href="http://www.habitat.noaa.gov/funding/marinedebris.html">www.habitat.noaa.gov/funding/marinedebris.html</a>	<b>Fall 2012</b>
Puget Sound Nearshore Partnership	\$25,000 to \$150,000	Funds the restoration of ecosystem processes that create and sustain marine shorelines, estuaries, intertidal and shallow subtidal habitats throughout Puget Sound. Funds are allocated through the Estuary and Salmon Restoration Program and solicitation. <a href="http://pugetsoundnearshore.org/esrp.htm">http://pugetsoundnearshore.org/esrp.htm</a>	<b>Fall 2012</b>
American Rivers River Restoration Grants	\$50,000 to \$150,000	Funds dam and barrier removal projects that restore and improve migratory fish habitat. <a href="http://www.americanrivers.org/noaagrants">www.americanrivers.org/noaagrants</a>	<b>Winter 2012</b>
Ecotrust Whole Watershed Restoration Initiative	\$20,000 to \$100,000	Funds projects that aim to restore the natural functions of whole watersheds and amplify community-based partnerships focused on the strategic restoration of Pacific salmon and steelhead ecosystems. <a href="http://www.ecotrust.org/wwri/">www.ecotrust.org/wwri/</a>	<b>Winter 2012</b>
