

## EFH Areas Protected from Fishing in the U.S. Pacific Ocean

Section 303(a)(7) of the Magnuson-Stevens Fishery Conservation and Management Act requires NOAA's National Marine Fisheries Service (NMFS) to take steps to minimize to the extent practicable adverse effects of fishing on essential fish habitat (EFH).

NMFS works with the Pacific Fishery Management Council to protect EFH in support of healthy ecosystems and sustainable fisheries in the U.S. Pacific Ocean.

Map available at [Fisheries Northwest Regional Office website](http://www.fisheries.nmfs.gov/nwrpo)

*Essential fish habitat (EFH) means those waters and substrate necessary to fish for spawning, breeding, feeding, or growth to maturity*
